Dear Sisters in Christ:

With the onset of the season of floods, tornados, fires, and hurricanes, my husband and I are planning a trip across Minnesota and Iowa to collect items for the NALC Disaster Response warehouse in Rantoul, IL. We are planning to leave Devils Lake, ND on Tues, June 22<sup>nd</sup>.

If you are interested in sending items, below are the churches along our route which are willing to be collection points. Please contact them to set up a time the week before to drop off your quilts, bibles, and kits.

On the back is the list of items that can be sent and preferred packing and labeling information. The lists are suggestions and no one will be taking them apart and checking them. Items can be substituted but try to keep them consistent. Flood bucket items can be sent in boxes without the buckets. Buckets can be sent and stacked separately without being boxed.

- box like items together and label
- weight should be no more than one person can lift.
- Tape boxes securely
- at the warehouse the items get put on a pallet and shrink wrapped
- All items stay in the USA.

We would appreciate information from you as to how many boxes you are planning to send. We are planning to make this an annual trip and in the future years I will just be sending this information via email. Therefore, please email me so I have a contact person and include your number of boxes. Last year we were very stuffed so we want to make sure we get a large enough trailer!

In Christ,

Jill & Ed Nesheim
