

May Progress Report 2022.

Average number of children fed (in hundreds):

800

Average number of feeding days per week:

6 days a week. Feeding is going on very well. This month we will exhaust the funding for feeding. In total this year we have received \$6396.66 for feeding and \$9,972.37 as general fund. The general fund goes to payments of workers, monitoring, and other administrative matters.

Queuing for their turn on the swing as they wait for a meal

Number of high school students:

73

Number of boarding school students:

8. Six in high school and two in college.

Status of National High School attendees:

Students are back in school.

Successful students

Precious

Blessings

Precious Masula is closing on 28th May, completing the 2021-2022 school year. He will be on a 2 months break. Blessings Tsonthi has been allocated to Salima District hospital for his first training from 30th May to July and then he will go back to Lilongwe campus.

We have another wonderful news to share with you. Leonard Robiam has passed his MSCE Examinations. He has scored 27 points which is a bit lower, he is not qualified to apply for the national university entrance, but has passed well and can still be accepted in other community colleges.

Our children at Kanyenyeva are growing up and most of them are working extra hard, it definitely is getting busy.

Status of soap business:

We continue to distribute tablets of soap to the children and volunteers and some is being sold by the beneficiaries.

Status of chicken/egg business:

The chicken house is complete and we wait to stock the chickens soon.

Status of Kanyenyeva Wala:

The team continues to make kit components with the few materials we have in stock. The team was invited by the expert community that Yami spoke to during their tea party to go and conduct a menstrual Hygiene lesson at one of the schools in Lilongwe. We are grateful for the recognition and believe that all this will bear fruits of success.

Status of the farm:

We have planted 1500 Blue Gum trees on our forest reserve strip at the farm. The rains started late and have stopped early. We have not received rains since early march, this is some worrisome news.

Other:

Sports equipment and gym

We need more balls, toys and other materials that the children can play with at the project. We are grateful that there is an initiative to buy balls by July that is going on.

The well

We have found several options on the well. On how we can run by solar energy and provide running water for both the Skills Centre and the villages around. We agreed to wait on the plumbing work until the mission team is here.

Women volunteers and the committee

The women and the committee still remain strong and continue to serve the children with passion.

Clothes, and shoes

We would love to provide the children with clothes, and shoes as well, funds permitting. Most children rely on the clothes that the ministry has been providing to them and it has been some time since we did that.

Blankets

We are very thankful and excited to receive money for blankets. To God be all the glory. We have distributed blankets to the first 600 children from nursery school all the way to standard 6. This has come at the right time as the cold season has now started. This is surely a very thoughtful and wonderful gift for our children. We thank God for all of you who took part in raising funds for this to happen.

Maize mill

We are excited to report that we will soon be starting work on the maize mill, starting with a building. All necessary equipment has been identified and most materials already bought.

This will go a long way to help the community. We thank God for all who donated towards this project.
